DECLARATION OF STELLA XANTHIS

I, Stella Xanthis, declare that:

I am a Paralegal working for the patent attorneys Hepp Wenger Ryffel AG in Wil, Switzerland. I am responsible for the administrative procedure of the application identified above.

On October 2, 2002, I wrote a letter, dictated by the responsible patent attorney, René Wenger, and addressed to Mr. Harish Parekh. A copy of that letter is attached to this statement as Appendix "A".

The letter was intended for delivery by registered mail with return receipt. I entered the letter into the internal post delivery recordal notebook (single page attached as Appendix "B"), according to the internal rules at Hepp Wenger Ryffel AG. See the third line, where "E+R" means registered letter, return receipt. The letter was

delivered to the post office the same day (October 2), as confirmed by the post office by a stamp in the official recordal book for registered letters. One page of that book is attached as Appendix "C". The fourth entry, item 204, is marked with a bar code ending "2391".

We subsequently received a delivery confirmation from the post office (Appendix "D"). On the line which is crossed just under the date 3 Oct. 2003, there is an entry referring to Harish Parekh. The number in column 4 is 2391, which corresponds with the bar code label. In column 8 at the outer right side the word "Frist" appears next to the postman's initials. This is a German word meaning that Mr. Parekh was not at home and the postman left an invitation to pick up the letter at the post office. A signature "M. Parekh" appears at the bottom of the delivery card, a copy of which is the third page of Appendix D.

I hereby declare that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that the making of willful false statements or the like is punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patents issued thereon.
